WASHINGTON, D.C. - The U.S. Department of Agriculture has released answers to some of the questions posed by Congressman Sam Farr (D-Carmel) in hearings earlier this year.

The answers are available online here .

Rep. Farr is also planning to meet with officials from the USDA and the California Department of Food and Agriculture tomorrow.

"I think the objective oversight role I am playing from Washington is a vital one," Rep. Farr said. "The goal to eradicate the moth remains the same. I will continue to work with all stakeholders to make sure this process is transparent and we have the safest possible resolution."
